time and money.

**YOU TAKE CARE OF YOUR GUEST ROOMS.
HOBART'S CLeN WAREWASHER WILL
TAKE CARE OF THE DISH ROOM. DEAL?**

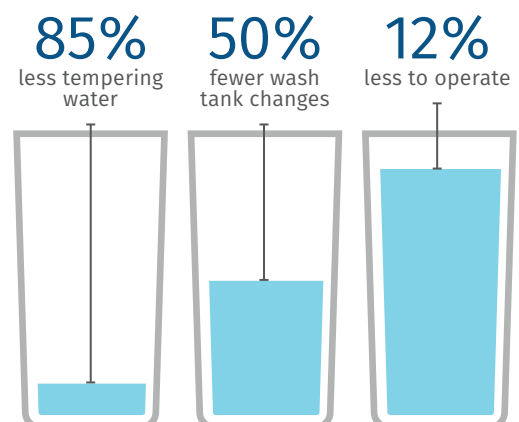

CLeN: SMART HOSPITALS CHOOSE SMART WAREWASHERS

Hobart's CLeN Warewasher turns dish washing into a science, using industry-leading technology to rack up more clean dishes in less time. Backed by legendary Hobart durability, the CLeN not only stands up to the rigors of the dish room, it's easy to operate and produces outstanding results in rack after rack of even the dirtiest dishes. Available in CLeN Base, CLeN Energy Recover, and CLeN Advansys models, the CLeN is your clearest choice.

- 20% energy cost savings versus CLe models
- 90% building supplied hot water savings
- 90% cold water savings for drain water tempering
- Exclusive NSF-rated Pot & Pan mode reduces or eliminates pre-soaking of prep ware
- Automatic Soil Removal (ASR) can reduce wash water changes by 50%

The CLeN Advansys Advantage

YOU CAN HAVE GREAT DISH ROOM EMPLOYEES, BUT IF YOUR WAREWASHER IS INEFFICIENT, THEIR PERFORMANCE AND YOUR BOTTOM LINE WILL BE, TOO.

SPEND WISELY NOW AND WATCH THE PAYBACK FLOW IN.

The lodging industry never sleeps. Providing excellent service for a better price than the hotel next door takes vigilance and savvy. When you invest in a CLeN, your investment helps you preserve both your quality, and your competitive edge.

Hobart's new CLeN warewasher powers through thousands of dishes an hour, reduces soap and de-liming agent use, and uses up to 20% less energy per year to operate than our previous model.

The Hobart CLeN redirects your dish room staff's energy, allowing them to spend less time managing your warewasher and more time putting dishes back in service. It's a clean you can trust.

THE CLeN RAISES PRODUCTIVITY AND ENERGY EFFICIENCY IN YOUR DISH ROOM.
