SL30 SIDE LOADING OPTION
For CLeN Series

MODELS
❑ SL30  Adds 30" to length of machine

STANDARD FEATURES
+ Automatically indexes rack at a 90° angle
+ Operates off the drive of the CLeN and requires no additional energy consumption
+ Easy to install
+ Stainless steel construction
+ Low maintenance
+ Easy to use
+ Saves valuable floor space
+ SL30 accepts full size sheet pans

Construction: Sump, back and end shields of formed 14-gauge stainless steel, heliarc-welded, with coved corners and all joints ground smooth and polished. Attached to dishmachine chamber with stainless steel bolts and reinforced with rigid stainless steel diagonal supports. Sump has 1½" drain connection and perforated stainless steel strainer cover over drain opening.

Conveyor: Two stainless steel rack slides welded to cross member support. Drive member is single stainless steel pawl, connected to dishmachine conveyor by a stainless steel rod. Rack drive pawl operates on two rollers, supported by two stainless steel rods and is beveled to permit rack to slide easily into side-loading extension.

Shipping Weight: Ships separately weighing approximately 100 lbs. Field mount standard.

Note: Racks must have center and side index strips.

WARNING: Electrical and grounding connections must comply with the applicable portions of the National Electrical Code and/or other local electrical codes.

Plumbing connections must comply with applicable sanitary, safety and plumbing codes.

SPECIFIER STATEMENT
The SL30 Side Loader option can be adapted to any Hobart non-CLCS Dishwasher. Model SL-30 adds 30" to length of machine.
