

Vision Screening for Children

All Lions clubs are autonomous, meaning that each Lions club is an independent entity responsible for conducting its own events and complying with local laws and regulations. This planner is intended to provide recommendations and should not be considered legal advice or best practices. The activities in this planner may or may not be appropriate within your community. Please consult a local professional to ensure compliance with all laws and regulations, safety guidelines and best practices.

This project planner can help your club organize a one-day to one-week vision screening for children to identify those who may have possible vision problems requiring comprehensive follow-up care and treatment by eye care professionals.

By taking on a project like this, you're helping achieve our strategic vision of improving the quality of life for people who are blind and visually impaired.

Start planning your event.

Fill in the blank fields in the form below to determine the details of your event.

Duration Location 1 day Outdoor space (e.g., local park) Medical facility What you will achieve Planning time Educational facility » Provide vision screening for 2-4 months Informal (e.g., faith-based) children to identify those who have vision problems. Mobile vision screening unit Start/end dates Other

Planned participants Select the audience you would like to serve at your event. People who will provide People we will serve: Notes: Be sure to invite the school (X) Children services: nurse, school staff liaison, Youth Trained vision screener administrator or representative of Community eye clinic staff faith-based organization to build Adult a community of support for eye Ochmunity eye hospital staff O All health and blindness prevention. Local eye care professional Social worker Other volunteers

Determine all required tasks for your project.

All projects should incorporate the following three tasks:

1. Determine screening method and identify professional screeners.

- » The method of vision screening and screening equipment should comply with local municipality or governmental regulations.
- » Adhere to approved active school screening programs already in place, if any.

Screening method and equipment:	
a	C

Assign roles for volunteers at your event.

Position/Role	Name	Contact Information	Notes
Project lead			Can be a Lion/Leo or eye care professional; should be familiar with basic knowledge of children/youth vision screenings, and also have the ability to manage event logistics and volunteers
Eye care professional			Recommended partners include a local eye care provider and low vision specialist, or community eye clinic or eye hospital
Volunteer manager			Make sure to identify volunteers who can discuss club membership with participants, and can train volunteers on working with children and youth
Marketing lead			
Event photographer			You must secure signed release forms from participants if you plan to use event photographs for promotional purposes
Local emergency medical services			Must be present at all times in case of a health emergency
Local partners/collaborators Recommended: Local eye health professional, local eye hospital, organizations with focus on assisting the blind and visually impaired			

All volunteers should be involved in the event activities, and committed to facilitating a safe and welcoming environment for the participants.

Make sure you have the appropriate ratio of adults to children for your selected activities.

Number of Lions	
Number of Leos	
Number of others	

Suggested volunteer ratios*:

- » 0-4 years: 1 volunteer per 4 children
- 4-8 years: 1 volunteer per 6 children
- » 9-12 years: 1 volunteer per 8 children
- » 12-18 years: 1 volunteer per 10 children

^{*} Many local governments have laws limiting the number of children a child care worker can be assigned to. Please be sure that any activities comply with local regulations.

Organize your project into achievable steps.

The project lead may complete this form and track progress.

Status	Task	Deadline	Task Lead	Tips
X	Inform your club			Host a meeting to inform your club about the event
	Create event name/title			
	Form a planning committee			Committee to determine the people served, secure the educational speaker and materials and plan all logistical aspects of the event
	Identify potential event collaborators			» Local eye health professional » Local eye hospital » Organizations focused on assisting the blind and visually impaired
	Prepare a preliminary budget			
	Pursue funding (if necessary)			
	Secure location, date and time			 Should be secured at least 1 month prior to event Consider locations for outreach in rural areas. Make sure you choose a space that can accommodate a large number of child beneficiaries, volunteer vision screeners and equipment.
	Ensure proper insurance coverage			Check with relevant officials to determine if a certificate of insurance or supplemental insurance will be required For questions regarding coverage under the General Liability Insurance Policy provided to all Lions clubs, please review the Program Insurance Booklet by visiting http://lionsclubs.org/pib-en
	Secure necessary volunteers and healthcare professional(s)			
	Create promotion/marketing plan			Can include flyers, digital materials, etc.
	Finalize event logistics			 Before your event, make sure you contact any service providers or event collaborators to make sure they are prepared to fill their roles in the event Ensure proper layout of equipment
	Schedule a post-event meeting to celebrate successes and discuss opportunities for improvement			Use the reflection questions to talk about your project

Determine the budget for your project.

_____ may use this worksheet to determine finances for the event.

Description	Quantity	Cost	Total Expense	In-Kind/ Donations	Income	Balance
Education						
Educational materials						
Equipment and s	upplies					
Screening equipment						
Facility rental						
Follow-up care		l			l	
Professional fees						
Marketing						
Other						
Professional fees						
Water/snacks						

Measure the success of your project.

Reconvene as an event planning committee to celebrate your impact and report your service!

Success Measures		
Measure your project		
# of people served under 18	# of nonmembers volunteered	
# of people served 18+	Total direct service hours	
# of Lions volunteered	Total project planning/fundraising hours	
# of Leos volunteered		
Reflect on your project		
Were you able to provide vision education and screening services for children and youth in your community who have vision problems?		
2. Did you connect children and youth with vision problems to comprehensive follow-up care and treatment by eye care professionals?		
3. What were your biggest successes?		
4. What were your biggest challenges?		
5. Would you do this event again?		
6. What would you change?		

Signs of possible eye problems in children

A child may not tell you that he or she has a vision problem because they may think the way they see is the way everyone sees.

What do your child's eyes look like?

- » Eyes don't line up; one eye appears crossed or looks out
- » Eyelids are red-rimmed, crusted or swollen
- » Eyes are watery or red (inflamed)

How does your child act?

- » Rubs eyes a lot
- » Closes or covers one eye
- » Tilts head or thrusts head forward
- » Has trouble reading or doing other close-up work, or holds objects close to eyes to see
- » Blinks more than usual or seems cranky when doing close-up work
- » Things are blurry or hard to see
- » Squints eyes or frowns

What does your child say?

- » "My eyes are itchy," "my eyes are burning," "my eyes feel scratchy," or "I can't see very well"
- » After doing close-up work, your child says, "I feel dizzy," "I have a headache," or "I feel sick/ nauseous"
- "Everything looks blurry," or "I see double"
- Remember, a child may still have an eye problem even if he or she does not complain or has not shown any unusual signs.
