2 in 3 people lack access to basic radiology services

BREATHING EASIER IN WEST BORNEO

Small but mighty is an apt description of Kharitas Bhakti Hospital. Serving the nearly 600,000 residents of Pontianak City, the capital of West Borneo’s Kalimantan Province, the public facility offers a 24-hour emergency room; nearly 75 patient beds; two surgical theatres; a pharmacy, laboratory, and radiology unit; and an outpatient clinic. What it does not offer is this: critical CT scan and MRI diagnostic testing.

When patient care demands use of these advanced medical machines, the hospital transports patients to other facilities. It’s an important step toward potential life-saving diagnoses and courses of treatment. Yet, a critical piece is missing. Kharitas Bhakti Hospital lacks ventilators for use during transport.

Learning of the need, Lions did what they do so often. They stepped in to improve the situation for their community.

Said one Lion who worked to provide a transport ventilator for the hospital as well as a neonatal ventilator, “Helping medical staff more easily deliver care to our neighbors is important. Lions collected donations to make this possible. Then, LCIF [Lions Clubs International Foundation] provided a US$45,000 grant, making our impact far greater.”
Vulnerable Populations Challenged

Though many are spared challenges of living life limited by disease; disability; or vulnerability due to age, gender, or economic or familial status, many in this part of the world are not and often require humanitarian services.

≥710,000
Australians have an intellectual disability²

30X
Measles cases growth in New Zealand 2018-2019⁴

15%
of the world’s population experience disability

Prevalence higher for developing countries³

US$818B
Global societal cost of dementia

1.1% of global gross domestic product⁶

6M
people are affected by measles each year⁷

THAT’S HERE. GLOBALLY, THE PICTURE LOOKS LIKE THIS:

10,000 - 100,000
US$1,500 - 5,000

MATCHING GRANTS fund construction and equipment costs

DISTRICT AND CLUB COMMUNITY IMPACT GRANTS apply to district and club projects

LEO SERVICE GRANTS fund Leo-led projects

GRANT AMOUNT VARIES

Hunger, Diabetes, and Childhood Cancer grants are also available.

LCIF AND LIONS
Funding Service, Delivering Solutions

Since 1968, LCIF has funded Lions service around the world. We continue our support, helping Lions deepen their commitment to their communities.

LCIF is the grant-making body empowering Lions to create greater impact in their communities and around the world. The vast majority of funding LCIF receives is from Lions; one hundred percent of every donation supports Lions service through LCIF grants and programs. Humanitarian efforts is just one cause area supported by LCIF and Campaign 100: LCIF Empowering Service. With financial support from Lions and clubs worldwide, Campaign 100 is empowering Lions to increase service impact in vision, youth, disaster relief, and humanitarian efforts; fight the global epidemic of diabetes; and make important progress in expanded cause areas of childhood cancer, hunger, and the environment.
