

2015 SDP EZ Hauler 55M Digger

CHASSIS

UNIT INFORMATION

Vin# 101958881612
Hydraulic track drive with auto 2 speed.
Skid steer.
Hydraulically extended tracks.
43-foot work height.
36-horse power.
Full 360-degree continuous rotation.
Full 360-degree non-zone rated work area.
5500-lb. Lifting capacity.
Meets or exceeds ANSI A92.2 – 2001, A10.31-2006, and SAE requirements.
Meets 46kv Category C dielectric qualifications.
Pin on bucket with 300 lb. Cap. 45 foot working height.
Hydraulic open/close and tilt pole guide.
Material handling jib and winch with 1000 lb. Capacity from bucket

DIMENSIONS

Length
Overall, length including crane is 17 ft.
Chassis length is 9 ft. 10 in.
Length with outriggers fully extended is 16 ft. 7 in.
Width
Overall, width with tracks extended is 51 in.
Width without tracks extended 35.5 in.
Width with outriggers fully extended is 11 ft.
c.Height
Overall, height including crane is 7 ft. 10 in.
Chassis height is 55 in.
Lifting height with crane fully elevated fully extended and outriggers fully extended are 43 ft.

EQUIPMENT

CAPACITY

Chassis
Transport capacity is 2500 lbs.
Crane
Maximum lifting capacity is 5500 lbs

CRANE

Excessive Load Limiting System (ELLS)
Limit possible overload of crane if operated beyond safe recommendation
Cylinder holding valves
Integral-mounted counter balance valve located in the base of cylinder
Controls
Wireless Controls with spare removable Battery on the Unit
Control valve
Individual operated compensator

WINCH

Planetary gear
Brake.
Mechanical.
Winch line.
Equipped with 9/16-inch fiber rope.
32,000-Lb. tensile strength.
5:1 safety factor.
Minimal UV damage.
Dielectric rate.
Resistant to passage of electric current.
Winch Kill Switch (Bucket and Auger Use)

AUGER

Auger: stored on side of boom with latching mechanism for transport.
Drive. 3500 ft/lbs. 5000 ft./lb. optional.
Bit.
18 inch standard. With Kelly bar.
2 inch input collar.
Optional 2 ½ input collar
