2.2 billion people+ globally live with visual impairment

DELIVERING THE GIFT OF SIGHT

Visual impairment. It’s a major health issue for an aging global population, including those aged 50+ in rural Northern Greece. With grant funding from Lions Clubs International Foundation (LCIF), Lions have literally mobilized to deliver the gift of eye care to seniors in remote villages, where access to diagnosis and treatment is challenging.

To achieve objective one – assessing residents’ eye health – Lions allocated US$125,000 in LCIF funding toward a van equipped with high-tech vision screening instruments. Trained on their use and joined by ophthalmic technicians and eye specialists from local hospitals, Lions began journeying north to change lives.

“LCIF is making it possible for us to deliver screenings to 7,500 people in 50 locations,” said Lion Tania Bekrodimitri. “Our van travels to the need. Each patient undergoes a basic exam, and those with a history of diabetes, or signs of glaucoma or macular degeneration, receive additional testing.”

Vision screenings are just one aspect of the two-year project. Additional LCIF grant funding supports specialized training for local ophthalmologists, and patient education on eye disease and on avoiding visual impairment progression.
Seeing Things Clearly

Vision has been at the forefront of Lions service for more than a century. Though tremendous strides have been made, work must continue, as statistically, vision-related issues look like this in this part of the world:

**Ranking among countries with highest incidence of visual impairment**
- Germany = 20
- Russia = 8
- Turkey = 7

**Nearly 7% of Norwegians aged 50+ have moderate to severe vision impairment**

**Diabetic retinopathy affects 43% of type 2 diabetes patients in the United Kingdom**

**THAT’S HERE. GLOBALLY, VISION CHALLENGES LOOK LIKE THIS:**

- **1 billion** people live with vision impairment that could have been prevented or can be corrected
- **US$14.3 billion** is needed to treat existing cases of refractive error and cataracts worldwide
- **Unaddressed distance vision impairment in many low- and middle-income regions is 4 times higher than in high-income regions**

**LCIF AND LIONS**

**Funding Service, Delivering Solutions**

More than US$365 million in LCIF SightFirst grants have helped Lions show the world a brighter tomorrow. We will continue to be part of the solution, adding to this progress:

Visit [lcif.org/vision](http://lcif.org/vision) to learn more and access information about LCIF’s SightFirst, Matching, and District and Club Community Impact grants.

- **9.3 MILLION** cataract surgeries performed
- **2.3 MILLION** professional eye care and community health workers trained
- **493 MILLION** doses of medicine provided for trachoma, onchocerciasis
