THE UNMET NEED

According to the World Health Organization, millions of children worldwide don’t have access to eye care.

- ~312 million children have uncorrected visual impairments and are under age 5.
- ~19 million children have visual impairments that cannot be corrected by corrective lenses.
- 3 out of 4 of these children live in Asia and Africa with a lack of access to treatment for preventable or treatable conditions.

SIGHT FOR KIDS 20-YEAR IMPACT

Sight For Kids serves millions of children around the world.

- 42 million students have been reached in underserved communities in Asia, Africa, and the U.S.
- 3 million students are reached every year.
- 500k pairs of eyeglasses provided to children in need.
- 200k teachers engaged.
- 600k students received treatment.

INSPIRING ACTION AROUND THE WORLD

Over the last 5 years, Sight For Kids programs have been brought to other countries, communities, and children in need.

- India (Hyderabad, Kochi, and Kolkata)
- Thailand
- Kenya
- U.S. (Four counties in South Florida launched 2021; Louisiana launching this year)

REAL LIFE SUCCESS

SOJJASH’S STORY

I had trouble seeing from the back of the classroom. I’m very happy that SFK and Lions visited my school and gave me my first pair of glasses so I can see better in school!

- Soujash, Student, Kolkata, India

EYE TOWARD THE FUTURE

The Sight For Kids program touches the lives of children, parents, teachers, eye care professionals, and so many others in the community.

Providing healthy eyes and community for those in need is something worth celebrating and one we hope to continue for years to come.
