SL23 SIDE LOADING OPTION
For CLeN Series

MODELS
- SL23  Adds 23" to length of machine

STANDARD FEATURES
- Automatically indexes rack at a 90° angle
- Operates off the drive of the CLeN and requires no additional energy consumption
- Easy to install
- Stainless steel construction
- Low maintenance
- Easy to use
- Saves valuable floor space
- SL23 does not accept full size sheet pans. Use model SL30 for full size sheet pans.

SPECIFIER STATEMENT
The SL23 Side Loader option can be adapted to any Hobart non-CLCS Dishwasher. Model SL-23 adds 23" to length of machine.

Construction: Sump, back and end shields of formed 14-gauge stainless steel, heliarc-welded, with coved corners and all joints ground smooth and polished. Attached to dishmachine chamber with stainless steel bolts and reinforced with rigid stainless steel diagonal supports. Sump has 1/2" drain connection and perforated stainless steel strainer cover over drain opening.

Conveyor: Two stainless steel rack slides welded to cross member support. Drive member is single stainless steel pawl, connected to dishmachine conveyor by a stainless steel rod. Rack drive pawl operates on two rollers, supported by two stainless steel rods and is beveled to permit rack to slide easily into side-loading extension.

Shipping Weight: Ships separately weighing approximately 100 lbs. Field mount standard.

Note: Racks must have center and side index strips.

WARNING: Electrical and grounding connections must comply with the applicable portions of the National Electrical Code and/or other local electrical codes.

Plumbing connections must comply with applicable sanitary, safety and plumbing codes.
