

# Lions KidSight

## Our Children Are Counting on Us

Lions KidSight is a program that brings Lions clubs across the world together to ensure our children receive vision screenings and follow-up care when needed.

According to educational experts, 80% of learning is visual (*American Optometric Association*). If children can't see well, they will have more difficulty learning. In addition, according to eye care professionals and the National Institutes of Health, prolonged screen time is strongly correlated with poor vision in children and is a growing issue.

At least 450 million children have a sight condition that needs treatment. Vision loss in childhood can impact a child's quality of life, and early identification and treatment are important to prevent permanent vision loss (*World Health Organization*).

### Support Lions KidSight

- **We're comprehensive** – We provide vision screening to children as young as 6 months to age 18.
- **We're international** – We've created a coordinated global coalition of active and experienced Lion vision screeners.
- **We're needed** – Vision problems undetected by age 7 can become permanent.

### Change a life by becoming a vision screener

- Every child deserves to learn and see the world clearly.
- With just minutes of training, any person can screen the vision of a child. Just push a few buttons and the screening devices used in KidSight do all the work, providing instantaneous, very accurate results.

### Start planning your vision screening program today

Visit [lionsclubs.org/en/lions-kidsight](https://lionsclubs.org/en/lions-kidsight) to learn more about becoming a vision screener and how to plan a half-day screening event.

### The kids are waiting for you!
