Brake Pads Comparison Chart ..... 18 -19

PROVEN RELIABILITY AND PERFORMANCE.

We are your source for the complete brake solution. From our trusted Carquest® and Wearever® products to other respected national brands, our pad and rotor options provide the level of safety and performance you and your customers expect.

We have the quality brake parts you need for maximum performance and reliability.

- Pads and rotors
- Shoes and drums
- Calipers
- Hydraulics
- Lines and hardware
- Brake fluid and parts cleaner

CARQUEST PROFESSIONAL PLATINUM BRAKE PADS

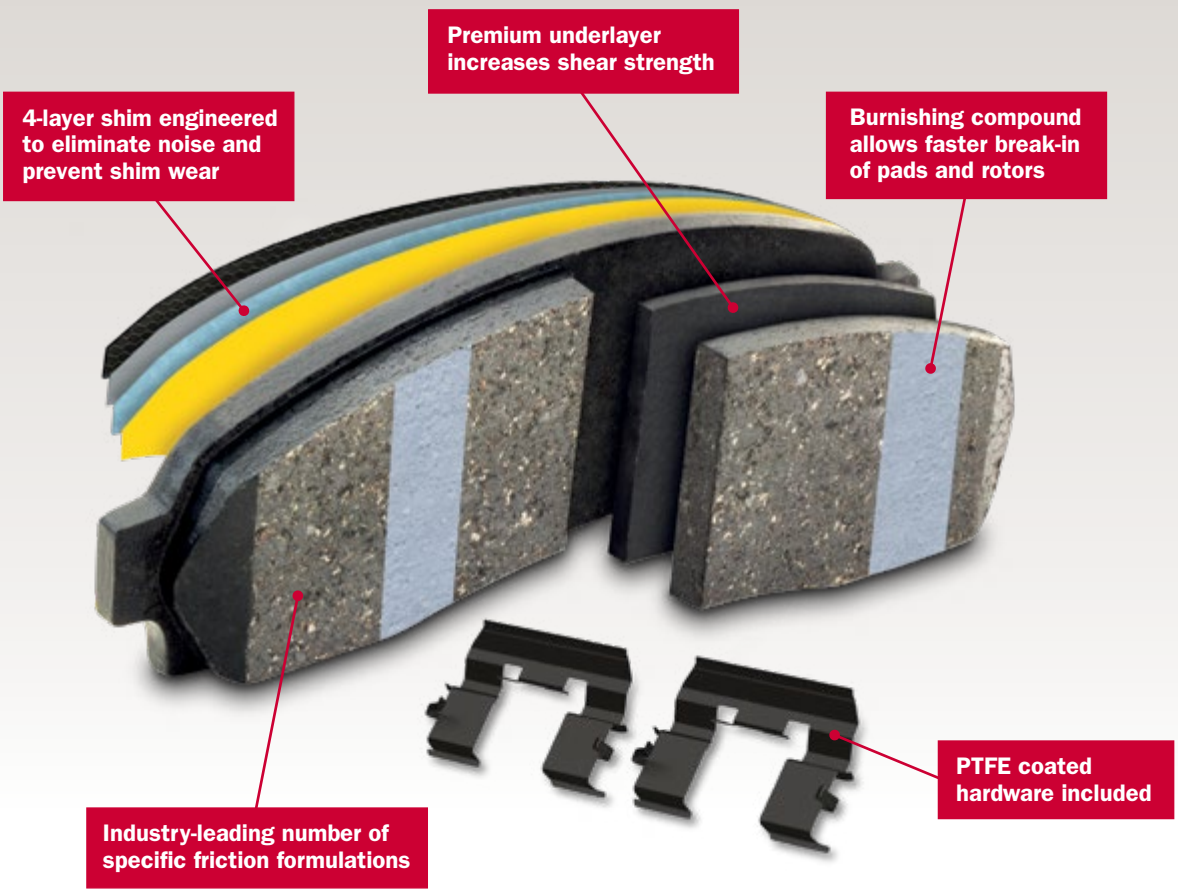

The optimal braking solution for the professional.

FEATURES

- Leading number of friction formulas for maximum performance
- Original equipment formulation offering
- Burnishing compound for faster break-in of pads and rotors
- 4-layer shim engineered to eliminate noise and prevent shim wear
- PTFE coated hardware included for nearly every application — eliminates rust and corrosion buildup to reduce drag, providing increased durability and noise reduction

LIMITED LIFETIME WARRANTY

Carquest® Professional Platinum also offers specific lines for both Truck/SUV and European applications.

TRUCK/SUV LINE

Our truck/SUV line features all the benefits of Carquest Professional Platinum brake pads, with coverage for an extensive list of truck and SUV application platforms. The program's formulations are specifically designed for superior performance, with leading stopping power and a quiet performance.

EURO LINE

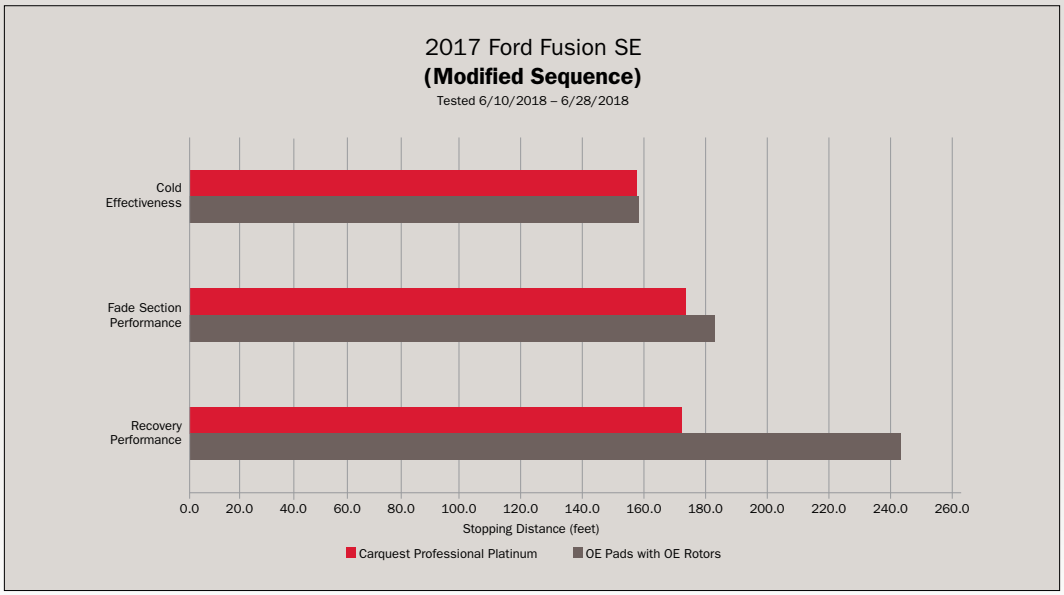

Our Euro line features all the benefits of Carquest Professional Platinum brake pads with a specific design to meet the needs of European imports. The Euro line uses ceramic and semi-metallic friction for superior performance, with included wear sensors for nearly all applications that require replacement.

CARQUEST PROFESSIONAL PLATINUM

Carquest® Professional Platinum Brake Pads are continually vehicle-tested and evaluated in variable environments to ensure industry-leading performance.

Stopping Distance — See how Carquest Professional Platinum stops ahead of the competition:

See how Carquest Professional Platinum stops ahead of the competition.

CARQUEST PREMIUM GOLD BRAKE PADS

Designed for consistent, quiet and clean braking.

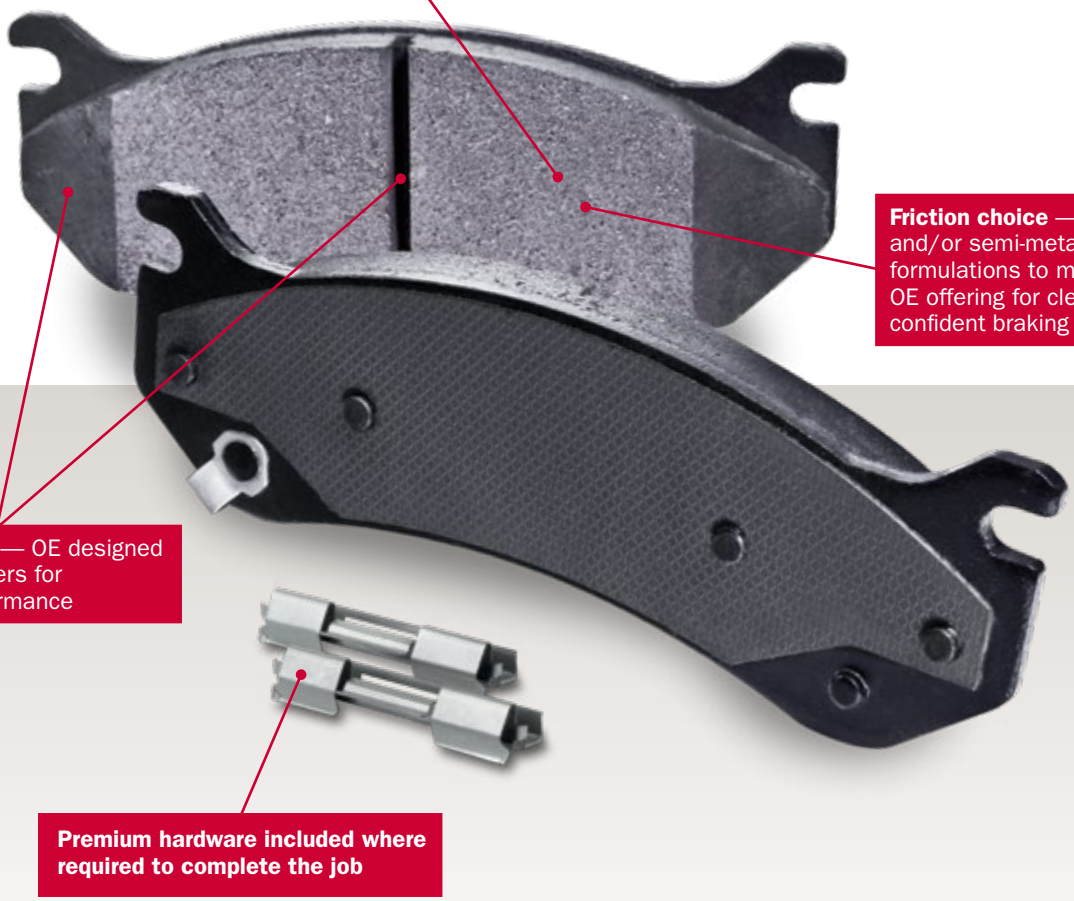

FEATURES

- Strong, quality vendor base — Includes OEM business in US, Europe and South Korea and OES business in the US and Europe
- Application-specific formulations — For extended pad life and clean wheels
- Multi-layer shim provides near silent braking
- OE designed slots and chamfers for consistent performance
- Hardware included for most applications

LIMITED LIFETIME WARRANTY

Friction formula — Meets or exceeds OE style performance for shorter stopping distances and extended life

Friction choice — Ceramic and/or semi-metallic formulations to match OE offering for clean and confident braking

Slots/chamfers — OE designed slots and chamfers for consistent performance

Premium hardware included where required to complete the job

CARQUEST STANDARD BRAKE PADS

OE fit and form for dependable stopping power.

CARQUEST STANDARD

FEATURES

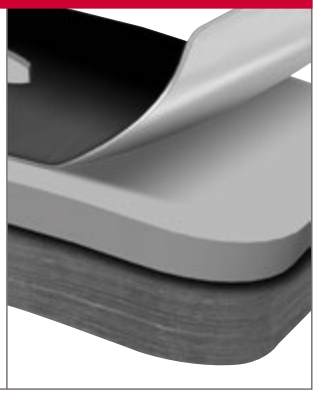

- Quality friction formulas provides increased pad life
- OE fit and form for dependable stopping power
- Single layer shim for quiet braking

LIMITED LIFETIME WARRANTY

Carquest Standard Brake Pad Shim

Single-layer shim absorbs noise and vibration for consistently quiet braking.

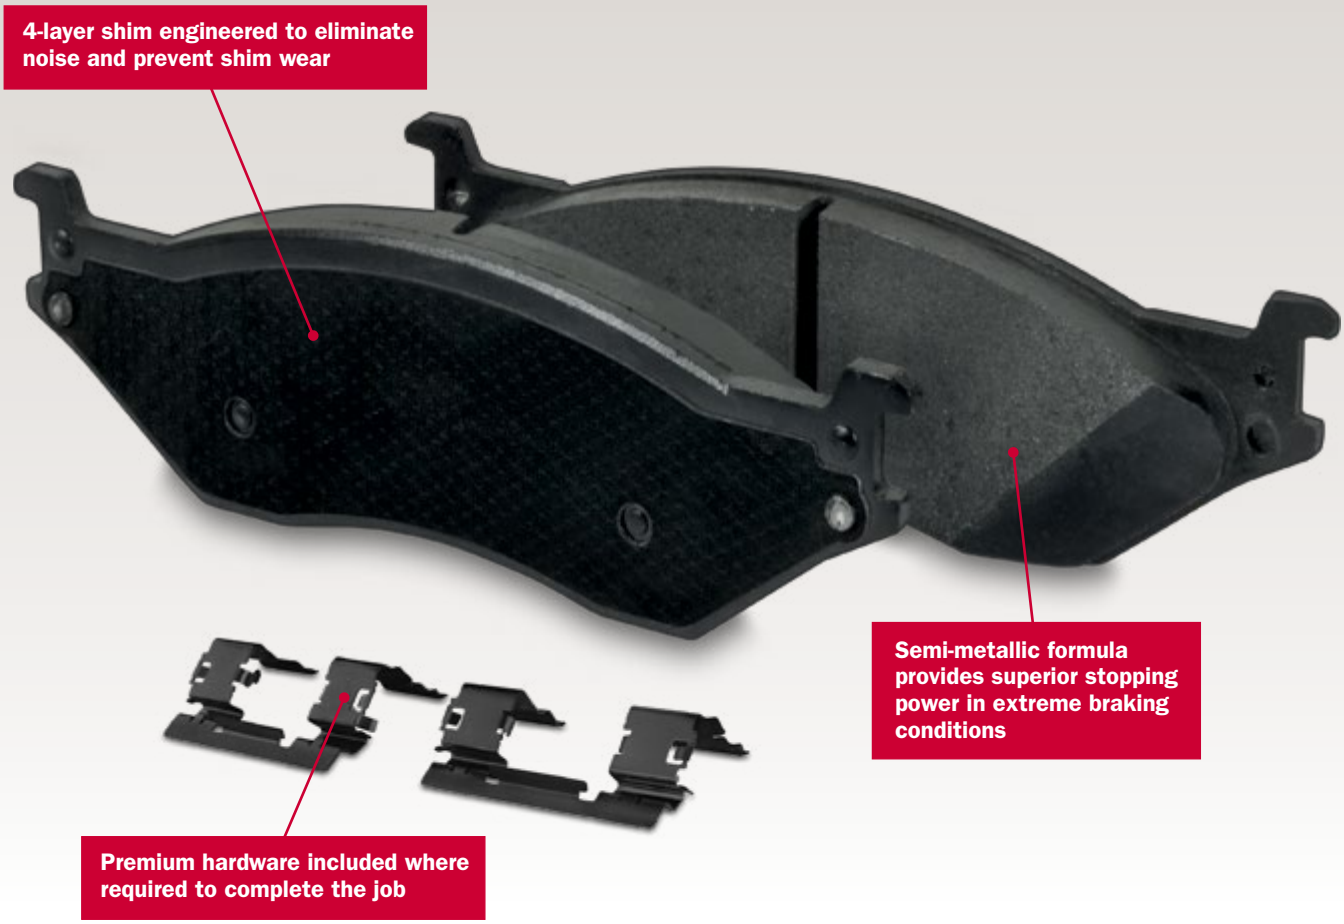

CARQUEST FRONTLINE™ BRAKE PADS

Frontline Severe Duty Brake Pads

FEATURES

- Premium formulations — Dissipates heat faster for extended pad life
- Complete testing protocol using real-world conditions — Results gathered through on-vehicle testing for superior stopping power and pad life
- Pad installation hardware — Included where required to complete the job

Frontline PD Police Brake Pads

FEATURES

- Premium formulations — Dissipates heat and reduces high-temperature fade, delivering extended pad life and lower cost-per-mile
- Pursuit-application performance testing — Proven to meet or exceed industry requirements through on-vehicle testing
- Superior stopping power and pad life — Delivers the tough reliability required for police fleets
- 4-layer shim engineered to eliminate noise and prevent shim wear

CARQUEST PLATINUM ROTORS

Carquest Platinum Rotors feature RotorShield™, an advanced rust inhibiting barrier for long-lasting protection and like-new appearance.

FEATURES

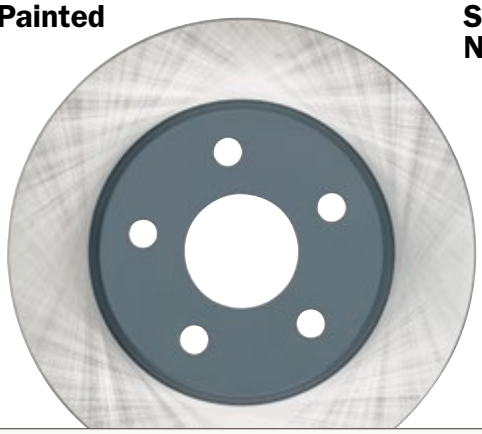

- RotorShield rust inhibiting barrier — Provides up to 5X more protection than standard non-painted rotors
- Engineered for performance — Withstands 120 hours of salt spray testing
- Available for late model applications (primarily 2013 model year and newer) — Designed for open wheels
- Meets or exceeds OE design — For superior stopping power
- OE vane size — Improves cooling, eliminates brake noise, and enhances pedal feel
- Air gap matches OE specs — Properly dissipates and absorbs heat, helping eliminate brake fade and increase pad life
- Non-directional finish — Decreases break-in time

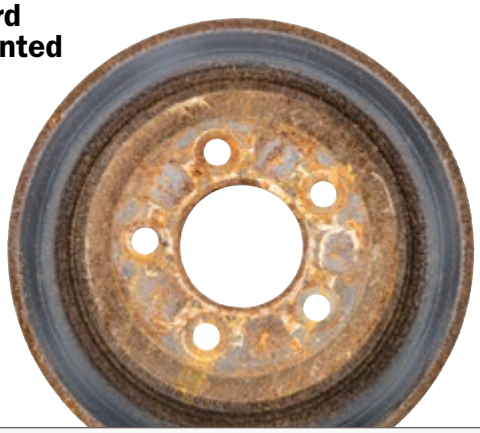

Carquest Platinum Rotors — See the Difference

RotorShield technology makes Carquest Platinum Rotors the obvious choice for long-lasting, reliable stopping power when compared to standard rotors.

Painted

Standard Non-painted

CARQUEST ROTORS

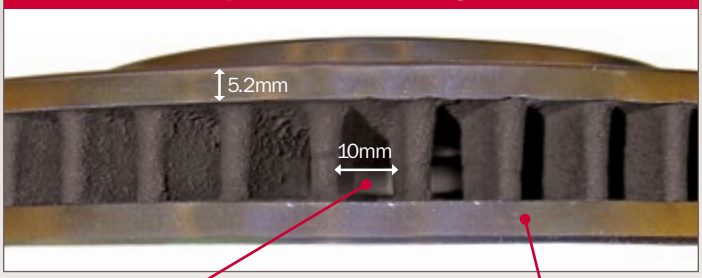

Carquest rotors meet OE specifications.

FEATURES

- Manufactured to exacting quality and dimensional specifications — Meets or exceeds OE design for superior stopping power (primarily for models 2012 and older)
- OE vane size — Improves cooling, eliminates brake noise and enhances pedal feel
- Air gap matches OE specs — Properly dissipates and absorbs heat, helping eliminate brake fade and increase pad life
- Non-directional finish — Decreases break-in time

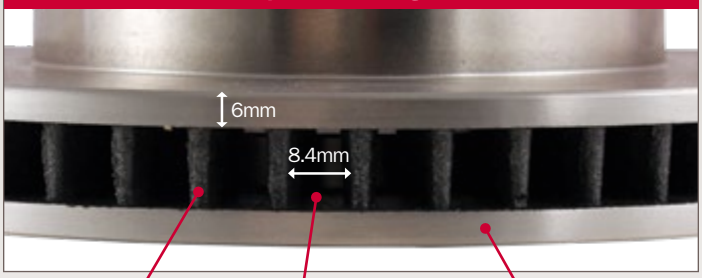

A Competitor's Non-OE Design Rotor

Air gap — Increased air gap can lead to warped rotors

Plate thickness — Thinner plates can increase the likelihood of heat cracking

A Carquest OE-Design Rotor

OE vane size

Air gap

Superior plate thickness

Measurements may vary per application.

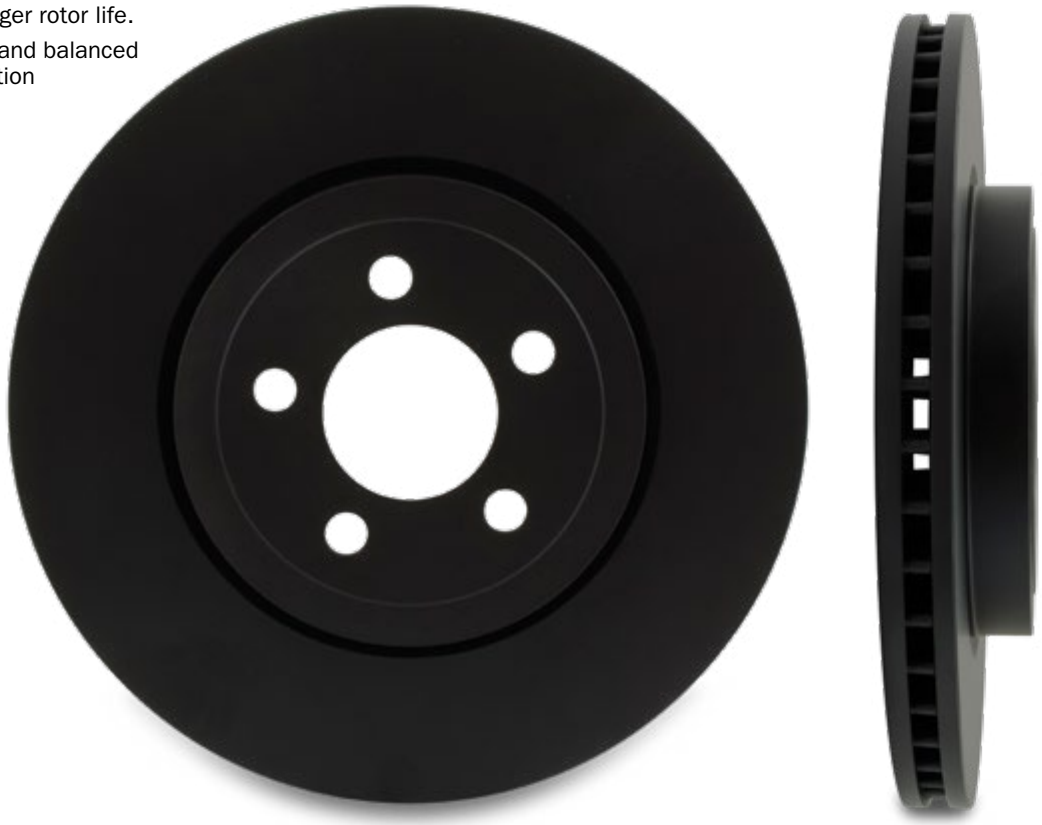

CARQUEST FRONTLINE™ ROTORS

Formulated for severe-duty vehicles.

FRONTLINE

FEATURES

- Laboratory tested — Ensures maximum resistance to thermal fatigue
- Rust and corrosion protection — Chromate free and environmentally friendly coating. Bonds with rotor's top layer, forming a 20-micron protection barrier preventing rust and corrosion for increased free-flow venting and longer rotor life.
- OE design — Machined and balanced for OE fit, form and function

Carquest Frontline Rotors for Severe Duty

High tensile strength and more carbon content for severe duty performance make Carquest Frontline rotors the obvious choice for police and severe duty applications.

WEAREVER BRAKE DRUMS

FEATURES

- All critical dimensions verified — To ensure fit and function
- Proper chemical compositions and microstructure — Ensure absorption and dissipation of heat
- Retained mechanical strength (tensile strength and hardness) — Ensure drums resist wear and abrasion
- Packaged with anti-rust agent and wrapped in polybag to prevent rust

WEAREVER BRAKE SHOES

FEATURES

- OE grade steel for maximum durability
- Contour or cam ground (where required by OE design) — Eliminates chatter and rear wheel lock-up
- OE-matched levers and hardware included (where applicable) for ease of installation

CARQUEST PREMIUM BRAKE CALIPERS

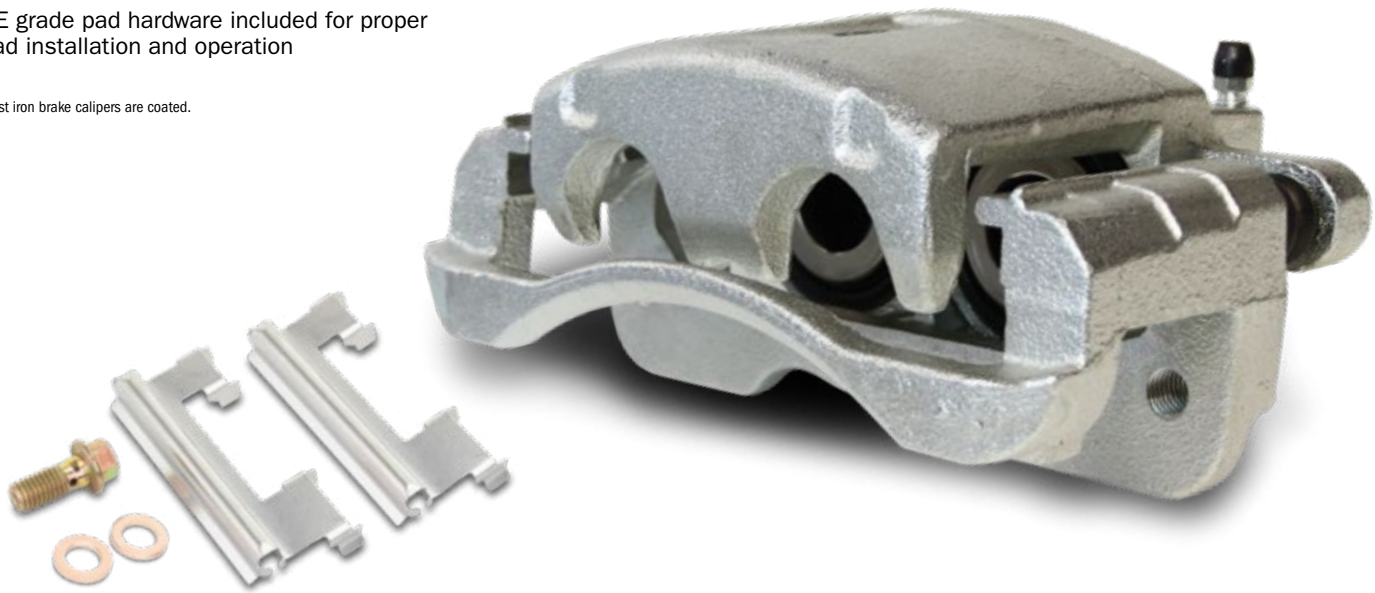

CARQUEST PREMIUM

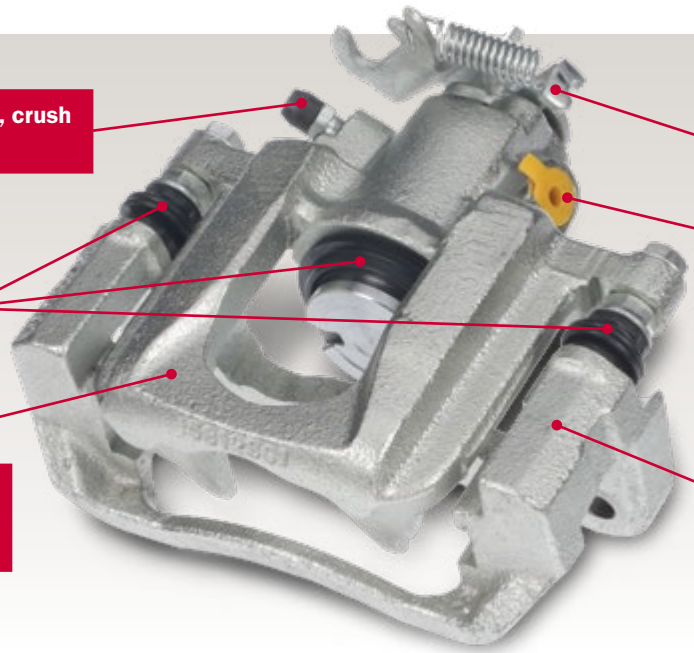

Engineered to fit and perform like original equipment for worry-free operation, with a premium protective coating* where applicable. All required hardware for installation included for easy install.

FEATURES

- Coating is salt-spray tested for 72 hours of continuous exposure without corrosion
- Manufactured to meet or exceed OEM specifications
- 100% end-of-line tested for worry-free performance
- OE grade replacement components for long service life
- Engineered to improve durability and extend service life
- OE grade pad hardware included for proper pad installation and operation

*All cast iron brake calipers are coated.

New, OE size bleeders, banjo bolts, crush washers and installation hardware

EPDM rubber components provide increased resistance to thermal deterioration

OE style zinc-dichromate coating provides unmatched protection from the elements

All parking brake springs, levers and hardware included where required

All threaded ports are chased and protected with plastic inserts

Application-specific brackets included where applicable

BRAKE HYDRAULICS

NEW MASTER CYLINDER FEATURES

- For a broad spectrum of vehicle applications — Includes brake fluid reservoirs and sensors where applicable
- Manufactured to strict engineering quality standards — Meeting S.A.E. specifications
- Each housing is constructed from high quality cast iron or aluminum — For long-lasting durability
- All rubber components are a high-quality EPDM compound — For resistance to glycol-based brake fluid
- Direct replacements for many applications — Providing proper fit, form and function

BRAKE HOSE FEATURES

- Meets federal DOT standards — To ensure performance and safety
- New copper washers — Provides hydraulic sealing
- Includes brackets (where applicable) and fittings for faster, easier installation

Boosters

- All rubber seals and wear parts are replaced in units
- Specially formulated anti-rust coating is applied on every unit

Brake Cables

- Inner cables are sheathed and lubricated to provide longer life and improved performance
- Flexible casings are covered with conduit to prevent corrosion of interior cables
- Zinc-plated fittings and clips prevent corrosion
- Brackets included (where applicable)

Wheel Cylinders

- Matches OE specs for vehicle integrity, performance and safety
- Smooth brake operation
- Corrosion resistant, durable and reliable

BRAKE HARDWARE AND WEAR SENSORS

Install new Wearever Brake Hardware and Wear Sensors when replacing pads to restore the braking system to like-new condition and reduce comebacks.

BRAKE HARDWARE FEATURES

- OE-enhanced design — Formulated for superior reliability
- Caliper bolts and bushings free caliper movement — Helps prevent excessive and uneven pad wear
- Change hardware everytime

WEAR SENSOR FEATURES

- OE design for perfect fit and function
- Available where required
- Must be changed when installing new pads

Carquest® Wearever® Professional Strength Brake Parts Cleaner OR Low VOC Brake Parts Cleaner

- Provides maximum cleaning without the use of chlorinated solvents for easy removal of brake fluid, dirt, grease, oil and other contaminents
- Quick and complete evaporation

WES	Product	Size
W20013	DOT 3 Brake Fluid	12oz
W20014	DOT 3 Brake Fluid	1QT

W5087	Low VOC Brake Parts Cleaner	5GL
W5088	Ultra Low VOC Brake Parts Cleaner	14oz

BRAKE LINES

NiCopp® EZ-FIT® Complete Brake Line Replacement Kits*

Fast, economical, superior quality solutions to replacing rusted and damaged steel brake lines in popular GM and Chevrolet trucks and SUVs.

- Incorporates AGS® corrosion-proof NiCopp tubing with EZ-Bend® technology enabling technicians to bend lines by hand rather than using specialized tools
- EZ-Bend technology makes bending, routing and installing easier than pre-bent lines
- NiCopp is the ultimate corrosion-proof tubing that outlasts even stainless steel
- Kit contains all lines required to complete the job
- Brake lines are cut to correct length and flared with correct rust-resistance black oxide fittings
- Highest quality machined flares for leak-proof and hassle-free connections
- Black oxide fittings provide increased corrosion protection over standard zinc-coated fittings.

*This product is stocked in most Northern distribution centers and available factory direct.

AGS NiCopp® Brake Lines

NiCopp Brake Lines save your customer time and money.

- Double coated, copper nickel alloy hardware is virtually rust and corrosion proof
- No bending tools necessary
- All lines and coils retain shape after bending
- Seamless tubing is more reliable under pressure
- Available in coils and pre-cut

AGS Poly-Armour® Brake Lines

- 30X more resistant to corrosion than steel
- Durable PVF coating
- SAE and Metric in 8"–72" lengths

AGS Brake Line Fitting Assortments

- Variety of popular fitting assortments available for both import and domestic
- Locator labels on the inside lid make locating, selecting and re-filling quick and easy

BL BLFA-8 OR SKU 22190199

BLFA-8K OR SKU 10269513
(Includes 25ft roll of NiCopp 3/16" brake line)
