NOTE: Cold water connection at P2 (as needed when optional drain water tempering kit is included: 55-80°F recommended, 1/2" MPT, 26-15/16" AFF.)

WARNING: Plumbing and electrical connections should be made by qualified personnel who will observe all the applicable plumbing, sanitary, safety codes and National Electrical Code.

Plumbing Notes: Required flowing water pressure to the dishmachine is 15-65 PSIG. If pressures higher than 65 PSIG are present, a pressure regulating valve must be installed in the water line to the dishmachine (by others). Recommended water hardness to be 3 grains or less for best results. Pressure gauge not required on pumped rinse machines.

Miscellaneous Notes: Backflow prevention provided by NSF-approved air gap device. Single point electrical connection machines.
