PLACING A SERVICE CALL

Please make sure you have the following information available:

- ✓ Serial Number
- ✓ Onsite Contact Name & Phone Number
- ✓ Address
- ✓ Description of Service Needed

PHONE SUPPORT

- ✓ Temperature Changing - Changing the setpoint
- ✓ Settings Reset - Unit freezing up or seems to not cool as well as usual

MAINTENANCE

- ✓ Coils should be free of debris & not impeding airflow
- ✓ Gaskets should be sealing & not torn/missing
- ✓ Water management (TS Prep) - has the drain line be cleaned recently?

ELECTRICAL

- ✓ Unit should be on a dedicated circuit
- ✓ Is the breaker tripped?
- ✓ Is the power switch on?

OBSERVATIONAL

- ✓ Is the unit in defrost?
- ✓ Is the display showing a decimal?
- ✓ Has the control been turned off?
