CLeN Conveyor Type Commercial Dishwasher

Wash smarter and turn loads of dishes into savings.
CLEN CONVEYOR TYPE DISHWASHER
Speeding up dish rooms with greater efficiency.

For medium- and high-volume operations, the performance and efficiency of your staff and commercial dishwashers can affect your entire operation. Hobart CLeN Dishwashers combine best-in-class performance and reliability with a lower total cost of ownership to keep up with busy kitchens and deliver greater lifetime value.

HOBART MAKES IT EASY
Responsive Service Team in all 50 States
Customized Service Programs
Installation Programs
18 Month & Extended Warranty
Financing Options with Low Monthly Payments

HOBART PERFORMANCE BENEFITS
Cleaning Performance
Utilities Optimization
Chemical Optimization
Soil Management
Labor Management
Life Cycle Management

19 1/8 chamber height opening accepts almost any size prep ware including up to 6 sheet pans at once and large mixing bowls.

Exclusive Opti-RinSe™ patented rinse-arm spray pattern creates large droplets to more efficiently sanitize the ware.

Door actuated drain closure actuates drain closure automatically after closing door. Eliminates extra manual steps and ensures that closure is always in the correct position.

GREATEST LIFETIME VALUE
ENERGY STAR® qualified CLeN dish machines provide low total cost of ownership* for greater lifetime value.

126,700 GALLONS WATER SAVED
1,140 FEWER KWH
$1,878 COST SAVINGS

*Projected annual savings from ASR and DWER on CLeNAdvansys vs. Base running 950 racks/day using gas facility heat. Multiply over life of machine for total lifetime value.

SAVE YOUR OPERATION TIME & MONEY
CUT WATER CONSUMPTION UP TO 90%
Drain Water Energy Recovery (DWER) transfers heat from drain water to the incoming cold water, saving up to 20% on energy to heat rinse water, and reducing water for drain water tempering up to 90%.

REDUCE WASH WATER CHANGES UP TO 50%
Automatic Soil Removal (ASR) actively pumps food soil from the wash tank to keep wash water cleaner, longer, with fewer tank fills per day. Save up to $522 per year on water, energy, and chemicals, and reduce pre-scrapping labor time up to 20%.

Intuitive controls make the CLeN easy to operate and configure.

Intelligent delime notification is fully configurable and tells you when to delime, saving water and chemicals from over-deliming.

Intelligent drain water energy recovery (DWER) transfers heat from drain water to incoming cold water, saving up to 20% on energy to heat rinse water, and reducing water for drain water tempering up to 90%.
